- Independent Reading
- Quizlet
- I-ready

Multi-Subject - STEM

What you should know about our class: We will have amazing fun venturing off with virtual experiments and case studies. We also will have the pleasure of engaging in Dream Box and iReady Supplemental curriculum, with our core practices from NYS Math Standards. Virtual learning gives way to scholars being able to incorporate a lot of technology into their learning experiences and also differentiation.

Case Study 1:

Earth Is Rock

Case Study 2:

Weathering and Erosion

Case Study 3:

Deposition

Launch Clubs

Launch Clubs is a way to focus on social bonding, interest, and extracurricular activities. Fun is a fundamental need that all people have. In school, if we don't provide fun, students find ways of providing it for themselves. At Launch clubs we are a balance between academic learning and social emotional learning.

Launch Clubs Description

Launch Clubs will provide:

- **1 hour of an activity**
- **Real Life Skills**
- **Space to Showcase your talents**
- **Building on HOHAM**
- **Virtual and/or Outdoor Outlet**
- **Social Bonding and Crew**
- **Community Collaborations**

**Only on
Fridays
4pm -5pm**

What is a Launch Club?

A Launch Club is structured choice time for students who meet weekly attendance standards as a celebration of their hard work. It also provides space for students who did not meet restorative expectations to reflect and plan how they will improve in a quiet, focused space outdoors, or virtual. It is called Launch Clubs because, like a variable, Clubs will represent different things depending on student's level of performance and the activities they choose.

8 Virtual Clubs

**Youtube, Bandlab beats,
Chorus, Cooking,
Yearbook, Journalism,
Stepping into Afrofuture,
House of Arts**

6 Outdoor Clubs

**Majorette, Step, Spanish, Live,
Love, Lanyards, Mindfulness and
Meditation Circle, and Amazing
Athletes**
